Spreading the success of your project

The Transport Research Knowledge Centre (TRKC) is the portal for European transport research. It also highlights results, policy implications and achievements on research carried out on national and international levels.

Share the success and good practice by submitting your project information via e-mail or online. Whether you co-ordinate an EU-funded project or undertake national research in your own country - add your project to the TRKC website!

Information can be easily submitted:

- Download a Word form on the TRKC website and send it electronically to pag@iabg.de.
- With an online data collection tool submit project information through our secure extranet
